

## Minerva Primary Academy Accessibility plan

The Accessibility plan is currently under review and can be viewed here shortly. As part of this plan it will outline the accessibility of our school site and our school curriculum;

- Our main school building is on one story and all classrooms can be accessed via a wheel chair accessible corridor.
- During our new build there are temporary terrapin classrooms. These are on two stories and the ground floor is accessible via a ramp or stairs. Care is taken to ensure pupils are placed in a suitable classroom for their individual needs.
